

## \_\_\_\_\_ Body Paragraph

\_\_\_\_\_ (subtopic)

**A.** \_\_\_\_\_ (First Conclusion)

1. \_\_\_\_\_ (supporting evidence)

2. \_\_\_\_\_ (supporting evidence)

**B.** \_\_\_\_\_ (Second Conclusion)

1. \_\_\_\_\_ (supporting evidence)

2. \_\_\_\_\_ (supporting evidence)

**C.** \_\_\_\_\_ (Third Conclusion)

1. \_\_\_\_\_ (supporting evidence)

2. \_\_\_\_\_ (supporting evidence)

**D.** \_\_\_\_\_ (Fourth Conclusion)

1. \_\_\_\_\_ (supporting evidence)

2. \_\_\_\_\_ (supporting evidence)

**E.** \_\_\_\_\_ (Fifth Conclusion)

1. \_\_\_\_\_ (supporting evidence)

2. \_\_\_\_\_ (supporting evidence)

## Organizing Information for your Body Paragraphs

Today we will take the fact cards and organize them into body paragraphs using a worksheet organizer. As a class, we will organize the information about phobias below. Then, you will use this model to organize your own fact cards and create your own opinions for your first body paragraph.

### Fact Cards:

Direct Quote – “A phobia is an unrealistic fear that is all out of proportion to the actual threat. The fear of spiders, for instance, would be present even when there were no spiders around.”

Paraphrase- A phobia is an unreasonable response to a situation.

Direct Quote- “As the name suggests, a specific phobia is an unreasonable fear of a specific thing, animal, or situation.”

Paraphrase- The results of a 2001 poll put snakes at the top of the list of most feared phobias.

II. What is a phobia? (First subtopic)

A. \_\_\_\_\_ (First Conclusion)

1. \_\_\_\_\_ (supporting evidence)

2. \_\_\_\_\_ (supporting evidence)

B. \_\_\_\_\_ (Second Conclusion)

1. \_\_\_\_\_ (supporting evidence)

2. \_\_\_\_\_ (supporting evidence)

Now, use your OWN fact cards and the paragraph worksheet to complete the organization of your FIRST BODY PARAGRAPH of your Expository Essay!
