

## Saint Report- Bibliography Information

A Bibliography is different from a Works Cited page (which you are creating for your research papers). Bibliographies list all sources you used as information for your essay and are used in an essay where you DO NOT CITE information from each specific source.

The Bibliography process is simpler than the Works Cited work you are doing for your research essay... but there are still RULES TO FOLLOW;

### Book Source Information:

TEMPLATE		
_____	_____	_____
author's last name	first name	title of book (underlined)
(indent) _____	_____	_____
